

Government of the Republic of Trinidad and Tobago

Ministry of Social Development and Family Services

MEDIA RELEASE

Tuesday, 30 June 2020

Priority: HIGH

FOR IMMEDIATE RELEASE

Adult Education Classes to commence in October, 2020

The Ministry of Social Development and Family Services wishes to announce that the 2020 Adult Education Training Programme will commence in October 2020 throughout various communities in Trinidad. Only persons who were previously registered for the 2020 Programme will be accepted.

The Adult Education Programme (AEP) provides academic and skills training in a variety of curriculum courses as well as marketable skills targeting the unemployed and under-employed and persons desirous of obtaining Mathematics and English at CXC level.

The Programme provides participants with equal opportunities to prepare themselves to compete for jobs or to develop the skills to create sustainable self-employment and entrepreneurship. Skills and competencies developed can then aid in the creation of home-based production of goods and services, diversification of income streams and employment generation.

The Ministry anticipates that while some of the classes will be held online, there are certain classes which will require a venue. In this regard, these classes will be limited to numbers recommended by the Ministry of Health. Persons should also note that standard guidelines and procedures consistent with the COVID-19 prevention protocols will be adhered to at all training venues.

For further information, persons may contact the Adult Education Unit at 623- 2608; EXT 1241, 1242.
